SELECT+A	Pause Game
SELECT+B	Restart Game

Functional Description

Left Stick L3

Right Stick R3

D-pad keys

Reset Button

Power Button

Volume Adjustment

Special Instructions

Power On / Off & Memory Card Description

1. Prior to powering on, you must insert the system card into the TF1-OS slot. Power on the system by pressing the power key.

2. To boot from the copied game data card inserted into TF2-GAME, select (OPTIONS-ADVANCED-SWITCH TO SD2 FOR ROMS), which enables the system to recognize and display the game card's content post-boot.

Warning Instructions

1. Without a system card, the device will not function properly, showing a yellow light and no display. If this occurs, insert the system card and press the Reset key to begin play.

2. If you set the software to SD2 and extract the TF2-GAME card, the system will not operate. If the software is set to SD2 and the TF2-GAME card is removed and reinserted, the system will indicate a malfunction.

Charging Instructions

1. When the device's red-light flashes, it indicates a low battery. Please charge promptly after connecting the DC charger.

2. If the red light continues to flash without changing to red, or if the device does not power on after an hour, press and hold the power key for 12 seconds to force shutdown and recharge. The device will automatically power down after one hour of inactivity; please recharge it as needed.

Product Specifications

*Processor: 64bit, Cortex-A7 running at 1.5GHz
*Battery: 5V 2A charging support
*Storage: Support for external TF cards up to 256GB
*Display: 3.5-inch screen, 640x480 IPS display
